This appropriation is intended to supplement other funds when provided by the New Hampshire Historical Society of Concord, N. H.

To date the required funds have not been acquired for restoration of Stark Pond Dam.

Until such time as necessary funds may be secured, it is recommended that a Town Committee of three-composed of Mr. David M. Hadley, Mrs. Mary Baker and Mrs. Robert E. Peck be appointed to co-operate with the New Hampshire Historical Society in serving the interests of Dunbarton on the aforesaid project.

Amendment by D. M. Hadley that the money appropriated March 11, 1947 be made a capital reserve fund, same to be transferred to the Trustees of Trust Funds, that this money may be withdrawn at the discretion of this committee and expended for the purpose for which it was appropriated. The amendment was accepted and the motion as amended was adopted.

The committee appointed March 11, 1947 to investigate the matter of a bulkhead at the town hall basement, reported, no action taken.

Motion of Frank E. Woodbury, Jr., that the town dispose of the Chevrolet Truck and that a committee of three be appointed by the chair to handle this matter.

Amendment by Merton D. Rumrill, that the matter of selling the truck be left with the selectmen.

The amendment was accepted and the motion as amended was adopted.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Dunbarton:

I hereby submit my annual report as Superintendent of the Dunbarton Schools.

The school year 1948-49 opened with all three teachers returning,—Mrs. Elizabeth J. Fottler and Mrs. Marion H. Hayes at the Center School, and Miss Sarah Ames at Montalona.

The instructional program at both schools is being conducted in a satisfactory manner considering the number of pupils enrolled. As the reader will note upon studying the statistical table contained elsewhere in the school report, the number of pupils at the Center School has increased tremendously during the last four years. The year 1945-46 saw 60 pupils enrolled at the Center, while at the present time we have 85, an increase of 42% over a four-year period. Not only is the number of children taxing the capacity of the rooms at the Center, but, far more important from an educational standpoint, the results obtainable in such crowded quarters are far below the desired.

Theoretically the rooms at the Center School should house not more than 25 children each. With four grades per room, and 40 pupils rather than the desired 25, no teacher can do her best work, nor can a group of youngsters have the benefit of proper instruction. The learning situation in such conditions is far from conducive to an ideal learning situation.

It should be kept in mind that, to those of us who in our youth attended such schools as in Dunbarton, the present educational needs and demands of society today are far from the demands of society when we were of school age. What was considered educationally adequate several years ago is today not adequate to meet the changing social and economic

needs. It is a physical impossibility for our teachers to conduct the accepted school program with more than 25 pupils per room.

All of this presents a serious problem for the citizens of Dunbarton. We are now far overcrowded in our schools, and, if the next five years brings an increase in school population to Dunbarton in the same proportion as anticipated for the state and nation as a whole, we in Dunbarton will face a difficult housing problem. Actually we should not add to our present numbers, — in fact, we should attempt to reduce the number in the Center School. Any increase, however small, will serve as "the straw that broke the camel's back".

Obviously we must take steps to reduce the number of pupils per teacher as well as to provide for any increase which may arise. Whether the answer is to impose the education of our children upon neighboring communities, or whether we should plan to add a third room to the Center School, I am not now prepared to say. The problem belongs to each and every citizen of the community it is his obligation to use his best judgment in order to provide for that which is best educationally for the youngsters of our town.

The preceding paragraphs would lead a person not familiar with the schools of Dunbarton to think that we had failed miserably in our obligation. Such a condition is far from true. When the Center School was remodeled, it was considered (and still is so considered) a desirable educational improvement. Modern schools demand adequate central heat, light, and sanitary conditions, all of which have been provided at the Center School. We have since incorporated a school lunch program, as well as instruction in music, and an improving health program. Much has been accomplished, but much remains to be done. Not only must our physical plant be improved, but our instructional program as well. Instruction in art, manual crafts, directed physical and recre-

ational activity both in and out of school, are among the goals we should consider for the near future. Such a program is dependent upon a strong central school program in contrast to the district school set-up of years long past.

Respectfully submitted,

LEWIS F. FOOTE,

Superintendent of Schools.

REPORT OF SCHOOL NURSE

Uncorrected physical defects or conditions affecting a child's health may be responsible for his failure to make expected progress in his school work. As the school is vitally interested in the health of your child, we endeavor at the time of the fall examination to notify you of any defects noted which appear to require further attention, and recommend that you consult your family physician or dentist for a more complete examination and advice.

Frequent use of available clinics affords an opportunity for early diagnosis, treatments and corrections. Nearly every pupil in our union has had the Patch test. Children showing a positive reaction are referred to the tubercular clinic in Manchester for special chest examinations and chest X-ray. Many little first graders, before entering our schools for the first time in the fall, have been immunized against diphtheria, whooping cough and tetanus.

Periodic examination of the eyes and correction of defects should and do receive special consideration. This test is given with the aid of the Massachusetts Vision Test recently purchased by the Supervisory Union.

Second only in importance to the sight, our hearing is vital to our safety, happiness and success in life. The person with ears that do not hear is dreadfully handicapped. The Supervisory Union has purchased a new Maico audiometer, an instrument that determines the hearing efficiency of our school children, and this test will be given once a year. Both of these instruments are electrically operated.

In the fall of 1947 and the beginning of our school year in 1948, about 100 pupils were examined by the school nurse.

The following report shows the number of pupils affected and the number of defects corrected.

Defective vision—14 Number of defects corrected— 8

Defective teeth —60	Number of defects corrected—20
Diseased tonsils— 9	Number of defects corrected— 1

There were 33 cases of measles in the summer and fall of 1947 and 35 cases of whooping cough. There were two appendectomy cases.

EDITH G. WALKER,
School Nurse.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

(1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.

(2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.

(3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

1948 FIRE RECORD

Number of Fires 3

Acreage Burned 1¼

Number of Fire Permits Issued 60

Respectfully submitted,
WILLIAM L. MERRILL,
Forest Fire Warden.
THOMAS J. KING,
District Chief.
